| Team ID      | PNT2022TMID30027                                    |
| Project Name | Smart farmer- IOT enabled smart farming application |

### Step 1:

# The IBM Cloud platform combines platform as a service (PaaS) with infrastructure as a service (IaaS) to provide an integrated experience. The platform scales and supports both small development teams and organizations, and large enterprise businesses.

# IBM cloud account has been created.

**Step 2:**

# It gives free trial of days to work on cloud. IBM Cloud for Education provides comprehensive cloud-based infrastructure and services to move the client's academic and research lab compute environment to cloud.
